## **Biography**

Born and raised in Jordan, and educated in the US, the Philippines, and Taiwan.

Dr. AlZoubi received his Ph.D. in Immunology from the College of Medicine at the University of Illinois at Chicago, in 2002.

Since then, Dr. AlZoubi has been working on cutting edge scientific research projects in biomedical research, including stem cells, regenerative medicine, cancer, immunology, and infectious diseases, in different parts of the world. Many of these projects led to accomplishment that are celebrated worldwide.

Dr. AlZoubi possesses a wealth of scientific knowledge and in-depth experience in biomedical research, both in academia and biotech industries.

Dr. AlZoubi is a co-inventor of several international patents and has a number of publications in peer-reviewed journals.

Dr. AlZoubi is the Co-Founder and Chief Executive Officer of Advanced Medical Solutions International (AMSI) in West Palm Beach, FL, USA, and the Founding President of Stem Cells Arabia, a biomedical research center based in Amman, Jordan.

Dr. AlZoubi is a member of several scientific associations and societies, serves as a board member and editor on a number of esteemed international organizations and peer-reviewed scientific journals.
