Senior Consultant in Physical and Rehabilitation Medicine | CEO | Renowned Speaker | Global Healthcare Innovator

Dr. Ali Otom is a distinguished senior consultant in Physical and Rehabilitation Medicine (PRM) with a comprehensive career spanning over two decades in healthcare leadership, patient care, and research. He is a recognized authority in spinal injuries, musculoskeletal disorders, and rehabilitation medicine, with notable expertise in strategic management and clinical excellence.

Dr. Otom is an internationally sought-after speaker, having delivered over 100 keynote presentations at prestigious national and international congresses. His leadership extends beyond clinical care, having served as the CEO of the Royal Specialty Center for Spine & Musculoskeletal Disorders, and previously as Executive Director of the Royal Rehabilitation Center at King Hussein Medical Center. He also directed the Rheumatology & Rehab Department at the same institution.

As a chair of the scientific committee for the International Society of Physical and Rehabilitation Medicine (ISPRM) in Jordan, Dr. Otom plays a key role in advancing the field globally. His leadership extends to multiple international organizations, including his position as a Fellow of the International Spinal Cord Society (ISCOS), and representative for the Middle East & North Africa region on ISCOS's External Relations Committee.

With advanced qualifications, including European Board Certification in PRM and a D-Med Rehab degree from the Royal College of Physicians in London, Dr. Otom is highly regarded for his expertise in clinical rehabilitation. He has significantly contributed to advancing physical rehabilitation through his work as a senior fellow and his role as a reviewer and editorial board member for respected international journals. His career is marked by a strong focus on patient-centered care, the integration of innovative healthcare solutions, and the growth of rehabilitation services on a global scale.

Dr. Otom's professional achievements also include his tenure as the founder and president of the Jordanian Association for Spinal Cord Injury Care (JOSCIC), vice-president of the Jordanian Society of PRM, and board member of several prominent healthcare organizations. A passionate advocate for the rights of persons with disabilities, he is also a trustee on the Higher Council for the Rights of Persons with Disabilities (HCD).

Dr. Otom's ongoing work aims to leverage his wealth of clinical and administrative experience to continue transforming health care, with a special focus on rehabilitation medicine, throughout the East Mediterranean and beyond.
